TOWN COUNCIL AGENDA REPORT

TO: Mayor and Councilmembers

FROM/PHONE: Mark A. Kutney, AICP, Development Services Director/ (954) 797-1101

PREPARED BY: David M. Abramson, Planner III

SUBJECT: Quasi Judicial Hearing: Rezoning, ZB 12-2-04/04-466/Wimberly Haven/4631 & 4701 Southwest 73rd Avenue/Generally located 1,140 feet south of Griffin Road, and west of Southwest 73rd Avenue

AFFECTED DISTRICT: District 2

TITLE OF AGENDA ITEM:

AN ORDINANCE OF THE TOWN OF DAVIE, FLORIDA, APPROVING REZONING PETITION ZB 12-2-04, CHANGING THE CLASSIFICATION OF CERTAIN LANDS WITHIN THE TOWN OF DAVIE FROM MH-10, MOBILE HOME DISTRICT TO RM-10, MEDIUM DWELLING DISTRICT; AMENDING THE TOWN ZONING MAP TO COMPLY THEREWITH; PROVIDING FOR SEVERABILITY; AND PROVIDING FOR AN EFFECTIVE DATE.

REPORT IN BRIEF:

The petitioner requests to rezone a portion (approximately 1.8 acres) of subject site located at 4701 Southwest 73rd Avenue **FROM:** MH-10, Mobile Home District **TO:** RM-10, Medium Dwelling District; and rezone a portion (approximately .92 acres) of subject site located at 4631 Southwest 73rd Avenue **FROM:** MH-10, Mobile Home District **TO:** RM-10, Medium Dwelling District.

The subject site(s) are located approximately 1,140 feet south of Griffin Road, and west of Southwest 73rd Avenue. The petitioner is proposing a multi-family residential development consisting of twenty-seven (27) townhome units. In order to construct this development on lots 4, 9, & 10, totaling approximately 2.72 acres (118,483 square feet), rezoning the above mention lots to a residential multi-family use district (RM-10, Medium Dwelling District) is required.

The subject site(s) Future Land Use Plan Map designations are Residential 10 DU/AC. The Town of Davie's RM-10, Medium Dwelling District zoning designation is consistent with the underlying Land Use Plan Map designation. According to the existing Land Development Code, RM-10 zoning district allows ten (10) multi-family dwelling units per acre, while MH-10 zoning district allows ten (10) mobile homes per acre. Rezoning to the RM-10 zoning district would maintain the residential density and eliminate mobile home uses on the subject site.

This rezoning is consistent with the Comprehensive Plan and does not exceed what was anticipated by the Future Land Use Plan Map designation.

Zoning History

Related Zoning History:

Records indicate that the existing Future Land Use Plan Map designation and Zoning classification were in place at the time of annexation.

Concurrent application requests on same property:

Site Plan Application (SP 3-6-05), this site plan application is for the development of eighteen (18) townhome units.

Site Plan Application (SP 4-6-05), this site plan application is for the development of nine (9) townhome units.

Application Details

The subject site(s) are located approximately 1,140 feet south of Griffin Road, and west of Southwest 73rd Avenue. The petitioner is proposing a multi-family residential development consisting of twenty-seven (27) townhome units. In order to construct this development on lots 4, 9, & 10, totaling approximately 2.72 acres (118,483 square feet), rezoning the above mention lots to a residential multi-family use district (RM-10, Medium Dwelling District) is required.

The subject site(s) Future Land Use Plan Map designations are Residential 10 DU/AC. The Town of Davie's RM-10, Medium Dwelling District zoning designation is consistent with the underlying Land Use designation.

Applicable Codes and Ordinances

Section 12-307 of the Land Development Code: review for rezonings.

Section 12-24(D)(5) of the Land Development Code: Medium Density Dwelling (RM-10) Districts: The and RM-10 District is intended to implement the ten (10) dwelling units per acre residential classification of the Town of Davie Future Land Use Plan and the residential classification of the Town of Davie Comprehensive Plan by providing for medium density multiple family dwelling districts in the Town of Davie.

Comprehensive Plan Considerations

Planning Area:

The subject property falls within Planning Area 9. This Planning Area is south of Griffin Road, generally north of Stirling Road, east of SW 76 Avenue and west of the Florida Turnpike. This area is predominantly agricultural in nature with scattered low-density single-family residential development. Low profile commercial development lines the Griffin Road, Davie Road, and Stirling Road corridors.

Broward County Land Use Plan:

The subject site falls within Flexibility Zone 102.

Applicable Goals, Objectives & Policies:

Future Land Use Plan, Objective 5: Consistency of Development with Comprehensive Plan, Policy 5-2: The (re)zoning, (re)plating, and site planning of land shall be in compliance with the density ranges shown on the Davie Future Land Use Plan map and the applicable Future Land Use Designation provisions as contained in the Permitted Uses portion of the Implementation Section.

Future Land Use Plan, Objective 17: Land Use Compatibility and Community Appearance, Policy 17-2: No property within the Town shall be rezoned to a zoning district that is not in compliance with the Davie Future Land Use Plan.

Future Land Use Plan, Objective 17: Land Use Compatibility and Community Appearance, Policy 17-6: Town land development regulations shall address incompatible land uses through requirements such as buffering and setbacks.

Future Land Use Plan, Objective 17: Land Use Compatibility and Community Appearance, Policy 17-7: Adopted land development regulations shall continue to set forth setbacks or separation regulations, landscaping requirements, and minimum open space criteria to enhance living and working environments.

Public Participation

The public participation process provides the ability for citizens of the Town of Davie to actively participate in the Town's development procedures. The petitioner conducted meetings with the public on May 11, 2005 and May 13, 2005 at the Town of Davie, Eastside Community Hall. Attached is the petitioner's Citizen Participation Report.

Significant Development Review Committee Comments

These following comments represent significant comments made by the Development Review Committee as part of the review process. All comments have been addressed unless otherwise indicated.

Housing and Community Development:

The Town of Davie's Housing and Community Development Office requires that any owner/developer who plans to rezone an existing mobile home park to another use which would cause the existing residents to be permanently and involuntarily displaced, provide a written "Exit/Relocation Plan" which clearly delineates how each resident will be successfully relocated to comparable replacement housing that is affordable to them. This document is crucial, because the affordable housing crisis in Broward County was exacerbated by Hurricane Wilma; and, options for the relocation of involuntarily displaced mobile home residents into comparable replacement housing that is affordable to them, is extremely limited and may be nonexistent in Davie.

Florida Statute 723.083 "Governmental Action Affecting the Removal of Mobile Home Owners" stipulates that "No agency of municipal, local, county, or state government shall approve any application for rezoning, or take any other official action, which would result in the removal or relocation of mobile home owners residing in a mobile home park, without first determining that adequate mobile home parks or other suitable facilities exist for the relocation of the mobile home owners". The Town's Housing and Community Development Department has already determined that no such comparable housing exists.

Goshen Properties was required to submit written Exit/Relocation Plans for both the Lauderdale/Anchorage and Ponderosa Mobile Home Parks. The Exit/Relocation Plan for the Lauderdale/Anchorage Park was reviewed and approved by this Department. The proposed Exit/Relocation Plan for the Ponderosa Mobile Home Park was submitted, but has not yet been approved. However, the Department concurs that without the knowledge that the applicants rezoning request is granted, the displacement/relocation issue may be moot.

Therefore, I do not object to the processing of this applicants request for a rezoning, as long as it is predicated on the fact that the applicant must subsequently submit a Final Exit/Relocation Plan for the Ponderosa Mobile Home Park residents, which is satisfactory to the Town's Housing and Community Development Department.

I have been working with Mr. Carlton Branker representing Goshen Properties; and, when we met, he agreed to offer all of the residents of the Ponderosa a one-year written lease to remain a tenant at the same rental rates as effective April 1, 2006. Any tenant that did not wish to sign a one-year lease has the right to remain on a month-to-month basis, at the same rental rates.

Mr. Branker agreed not to seek any additional rental increases during the 15 month period effective April 1, 2006. (This affects all residents whether they accept the one year lease option or not). Should any of the current tenants move out voluntarily during the 15 month period, Goshen Properties may or may not choose to re-rent that mobile home. If they do, any prospective tenant must receive the same guaranteed rent for the balance of the 15 month period that commenced April 1, 2006. Goshen Properties must provide this office with Notarized Affidavits from any tenant who seeks to voluntarily

relocate, evidencing that they have not been coerced to leave, and that they have located comparable replacement housing of their own choosing.

Mr. Branker agreed to submit the Final Relocation Exit/Plan to this Office three (3) months prior to the state-mandated 6 month notice period, in accordance with Florida Statute 723. He guaranteed that no displacement/relocation will be pursued during this period; and, from April 1, 2006 to June 30, 2007, all compliant residents will remain in occupancy at the current rental rates i.e., there can be no rent increase through June 30, 2007.

If the rezoning request is granted, and the decision is made to move forward with the development, Goshen Properties must submit their Final Exit/Relocation Plan to the Housing and Community Development Office within 90 days. During that time, all residents must be interviewed and an individual relocation plan must be formulated for each resident which is tailored to their specific needs. Each Individualized Exit/Relocation Plan will be presented to this Department for review and approval.

Each tenant must receive just compensation for their mobile home unit and sufficient financial assistance (relocation payments) to move into decent, safe, sanitary, comparable replacement housing that is affordable to them.

Please ensure that any rezoning is contingent on all items outlined herein. Thanks for your cooperation and assistance in this matter.

Staff Analysis

The purpose of this request is to rezone the subject site(s) from MH-10, Mobile Home District to RM-10, Medium Dwelling District. According to the existing Land Development Code, RM-10 zoning district allow ten (10) multi-family dwelling units per acre, while MH-10 zoning district allows ten (10) mobile homes per acre. Rezoning to the RM-10 zoning district would maintain the residential density and eliminate mobile home uses on the subject site.

This rezoning is consistent with the Comprehensive Plan and Land Development Code. Development of this site as proposed does not exceed what was anticipated by the Future Land Use Plan Map designation.

Findings of Fact

Rezoning:

Section 12-307(A) (1):

The following findings of facts apply to the rezoning request:

- (a) The proposed change is not contrary to the adopted comprehensive plan, as amended, or any element or portion thereof;

The Future Land Use Plan Map designates the parcel as Residential (10 DU/AC), and the comprehensive plan allows townhome dwellings to be developed in this residential land use category.

- (b) The proposed change will create an isolated zoning district unrelated and incompatible with adjacent and nearby districts;

The requested RM-10, Medium Dwelling District is compatible with the future land use plan map, however, would create isolated zoning districts for lots 4, 9 & 10 that are not contiguous and other parent parcels are not zoned RM-10, Medium Dwelling District.

- (c) Existing zoning district boundaries are logically drawn in relation to existing conditions on the property proposed for change;

The existing MH-10, Mobile Home District boundaries are logically drawn in accordance with the future land use plan map.

- (d) The proposed change will not adversely affect living conditions in the neighborhood;

The development of 27 townhomes will not have adverse impacts on the surrounding areas. However, those residents presently residing at those mobile home communities could occur unfavorable impacts.

- (e) The proposed change will not create or excessively increase automobile and vehicular traffic congestion above that which would be anticipated with permitted intensities or densities of the underlying land use plan designation, or otherwise affect public safety;

The traffic generated by 27 townhomes is what the land use plan anticipated. Prior to final approval of plats by Broward County, traffic impacts are assessed and concurrency must be met.

- (f) The proposed change will not adversely affect other property values;

Surrounding property values will not be adversely impacted by the development of townhomes on the subject sites. However, in general, townhome property values are higher than those of mobile homes, thus, possibly creating a townhome development trend in this area of unfavorable monetary impacts to residents living in neighboring mobile home communities.

- (g) The proposed change will not be a deterrent to the improvement or development of other property in accord with existing regulations;

Development of the subject sites will not deter development or improvement of adjacent parcels. However, no townhome developments have yet been approved in the neighboring area.

- (h) The proposed change does not constitute a grant of special privilege to an individual owner as contrasted with the welfare of the general public;

This request is a privilege that can be afforded to any owner that has a parcel that meets the Land Development Code's minimum requirements to achieve the zoning classification.

- (i) There are not substantial reasons why the property cannot be used in accord with existing zoning.

The subject site can be developed according to the existing zoning district standards; however the requested designation is consistent with the land use plan.

- (j) The proposed zoning designation is the most appropriate designation to enhance the Town's tax base given the site location relative to the pattern of land use designations established on the Future Land Use Plan Map, appropriate land use planning practice, and comprehensive plan policies directing land use location.

The proposed zoning designation is consistent with the Future Land Use Plan Map and is therefore the most appropriate designation to enhance the Town's tax base.

Staff Recommendation

Staff finds the subject application complete and suitable for transmittal to the Planning and Zoning Board and Town Council for further consideration.

RE: **GOSHEN PROPERTIES**
Rezoning Application Justification Statement

The following is our justification for our rezoning request.

1. **Criteria:** *The proposed change is not contrary to the adopted comprehensive plans, as amended, or any element or portion thereof.*
Response: Both the Existing and Future Land Use Map for the Town of Davie Comprehensive Plan identifies the subject property as "Residential 10 units per acre". Therefore, The proposed rezoning change from the "MH-10" to "RM-10" district is not contrary to the adopted comprehensive plan.
2. **Criteria:** *The proposed change would not create an isolated zoning district unrelated and incompatible with adjacent and nearby districts.*
Response: The proposed change will not create an isolated zoning district unrelated or incompatible with nearby districts. These properties are currently within an area zoned and in use as MH-10. The land under consideration for rezoning is surrounded with a mix of zoning densities (R-5 to the west, R-3 to the East, MH-10 and A-1 to the South and West Gateway to the North).
3. **Criteria:** *Existing zoning district boundaries are illogically drawn in relation to existing conditions on the property proposed for change.*
Response: The subject parcels of land are within a Land Use area designated "Residential 10 units per acre". Rezoning the parcels from MH-10 to RM-10 will maintain a uniform zoning district. The same density will be maintained.
4. **Criteria:** *The proposed change will not adversely affect living conditions in the neighborhood.*

Response: The proposed change from MH-10 to RM-10 and the development of townhouses as we propose will not adversely affect living conditions in the neighborhood, but on the contrary be a better condition for the community. The proposed development will be an upgrade from the existing trailer park. Pedestrian connectivity will be constructed where there is currently none. Dumpster facilities and emergency access will also be provided where there currently is none. Parking to meet the code will be provided where there is currently little or no parking provided now. Landscaping will be installed to beautify the area. Water distribution system will be upgraded to meet current demand thereby increasing fire protection and domestic service. Septic tanks will be replaced with city sewer service. All in all the neighborhood will be a safer and more desirable place to live.

5. **Criteria:** *The proposed change will not create or excessively increase automobile and vehicular traffic congestion above that which would be anticipated with permitted intensities or densities of the underlying land use plan designation, or otherwise affect public safety.*

Response: The underlying land use designation is "Residential 10 units per acre". The proposed rezoning does not affect the vehicular traffic generated from this site because the existing zoning and the proposed zoning have the same density.

6. **Criteria:** *The proposed change will not adversely affect other property values.*

Response: The proposed change from MH-10 to RM-10 and the development of townhouses as we propose will not adversely affect living conditions in the neighborhood, but on the contrary be a better condition for the community. The anticipated value of the townhouses will be \$280,000.00 to \$325,000.00 which is substantially above the value of the existing mobile homes. This not only increases the tax base for the Town but also increases the values of the surrounding properties.

7. **Criteria:** *The proposed change will not be a deterrent to the improvement or development of other property in accord with existing regulations.*

Response: The proposed change in zoning is in no way a deterrent to the improvement or development of other property. On the contrary, by leading the way we feel it will spur development within this area. Our development will bring water and sewer utilities to the adjacent property thereby enhancing the ability of those adjacent properties to develop.

8. **Criteria:** *The proposed change will not constitute a grant of special privilege to an individual owner as contrasted with the welfare of the general public.*

Response: We are requesting a zoning district with an identical density to the existing zoning district. Therefore, it is not a grant of special privilege. The potentially increased property values of the adjacent properties will be a positive impact on the welfare of the general public.

9. **Criteria:** *There are substantial reasons why the property cannot be used in accord with the existing zoning.*
Response: The property is currently in use under the existing zoning as a mobile home development. The trailers are situated on rented land which has inadequate fire protection, insufficient parking, sewage is being handled via septic systems, and there is virtually no existing landscaping. We propose to change those conditions with our new development of townhouses.
10. **Criteria:** *The proposed zoning designation is the most appropriate designation to enhance the Town's tax base given the site location relative to the pattern of land use designations established on the future land use plan map, appropriate land use planning practice, and comprehensive plan policies directing land use location..*
Response: The proposed zoning designation is the most appropriate designation to enhance the Town's tax base. The proposed zoning conforms with the Future Land Use plan and is compatible with the surrounding zoning. This proposed zoning will not increase density and therefore will not affect traffic. The increased value of our proposed development over the current use will increase the Town's tax base.

In conclusion, it is our opinion that the use contemplated with this rezoning request is the most appropriate for the Town and the neighboring residence. We feel that this property is best suited to be developed as townhouses keeping the same density as the current use. This comprehensive and cohesive planned development which will benefit and serve the residents of the Town of Davie for years to come is overwhelmingly more desirable than the uses currently utilized under the existing zoning district.

We respectfully submit this application for rezoning for your consideration and ultimate approval. Should you have any questions or require further documentation, please do not hesitate to contact me.

Sincerely,

RE: Goshen Properties LLC and Goshen Properties II, LLC
Site Plan Application/Citizen Participation Plan

Dear David:

As required by Davie Ordinance No. 2204-31, we are enclosing herewith a copy of the proposed citizen participation plan related to the site plan approval for the referenced project. In addition to the outline of the plan we are enclosing the following material.

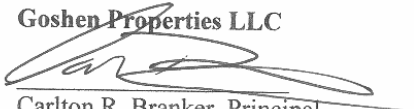

- 1) A list of affected parties as provided by your office
- 2) All affected parties are being notified via U.S. Postal Service
- 3) A copy of a notification letter which provides the total area of the residential parcels of land as being .92 acres for Lot 4 and 1.8 acres for Lots 9 and 10 are enclosed. The letter also indicates that the proposed residential developments consist of a total of 59,385 square feet.
- 4) The notification letter, which contains a brief description of the proposed projects, is being sent to all affected parties, inviting them to two public hearings to take place at 6:00 p.m. at the Davie East Side Community Hall. The affected parties are being invited to examine the plans for the proposed improvements and provide us with comments about the project.
- 5) The enclosed citizens participation plan describes the schedule of events planned by the applicant to complete the citizen's participation procedure.

- 6) We will maintain the development services department informed of the citizen's participation effort, by direct communication to your office.
- 7) Upon completion of the public hearings we will prepare a citizen participation report in accordance with Section 12-319.8 of the Davie code.

We hope that the above satisfies the requirement of public participation in the site plan review process. If you have any additional questions or concerns, we can be reached at 954-557-4016.

Sincerely,

Goshen Properties LLC
